

FINAL CAMP 2026 · NOVEMBER-DECEMBER

Looking for an international collaboration project.

A team of entrepreneurship and team leadership students from Tampere University of Applied Sciences, Finland.

01 — WHO WE ARE

We are students who run real businesses.

As the final chapter of our studies we are looking for an international project. First, who is asking:

Our studies are based on Proakatemia, an entrepreneurial learning environment where students start a company on day one, work with real clients and learn by doing rather than by sitting in lectures.

STUDENTS IN THE TEAM

3

YEARS OF
ENTREPRENEURSHIP
STUDIES

1

TEAM COMPANY OF OUR
OWN

Our team company, Ropina Innovations, is what has allowed us to turn that learning into real projects, businesses and collaborations.

What we are looking for.

WHO

A company, organisation or community interested in fresh perspectives, new ideas and working with an international student team.

WHERE

Europe is our primary focus, but we are open to other locations and to opportunities we haven't thought of yet.

WHEN

A short project during November–December 2026. One to five days on site is enough — longer works too.

COULD BE

Innovation workshop

Market research

Marketing development

Content creation

Business development

Event support

Or another challenge where an outside perspective is useful

A diverse team with practical experience.

Twenty-one people, and between us we have built these things for real clients and for our own companies.

Innovation & workshops

Developing new concepts, facilitating workshops and solving business challenges.

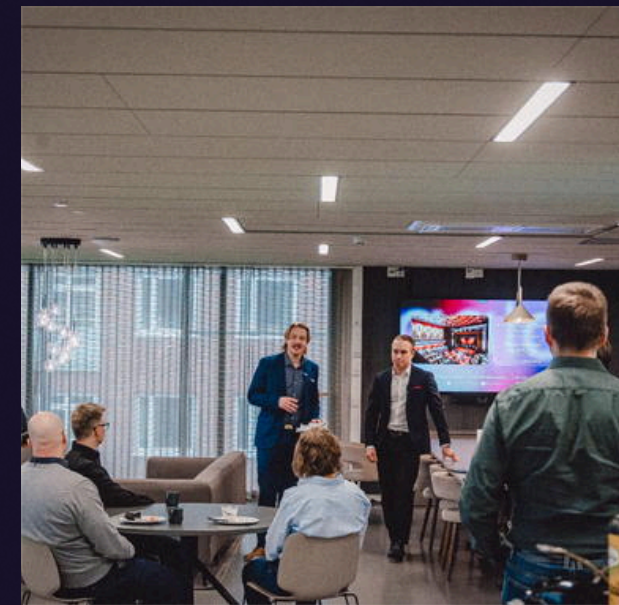

Marketing & content

Marketing strategy, campaigns, video production, storytelling and visual communication.

Events & experiences

Planning events, creating concepts and supporting execution on the day.

Business development

Customer understanding, sales, partnerships and turning ideas into practical solutions.

Dialogue & teamwork

A learning environment built on dialogue, reflection and shared responsibility.

We learn by doing.

During our studies we have solved real business challenges for companies and organisations, and built companies of our own.

4.8 / 5

AVERAGE RATING FROM
OUR CLIENT PROJECTS

Tampere City Project Office

5 / 5

The brief was a workshop. The real question underneath was how project leaders could genuinely meet each other. We created a gamified team-building and networking concept.

Pirkanmaa Entrepreneurs

5 / 5

How do you make business succession interesting to a young audience? We built the concept and the marketing and communications plan around real entrepreneur stories.

Companies of our own

Three businesses we built from idea to execution, all still running.

TREX AI

300+ business decision-makers · 73 % senior leadership

lævly

500 000 € revenue · 6 cities · 9 stories in national media

Kuplapallo

160+ events a year · 3 500+ participants · 5.0 / 5

FINAL CAMP 2026 · NOVEMBER–DECEMBER

Could we create something together?

We are looking for an organisation to spend our Final Camp with — learning from you, contributing our skills, and making something worth the trip for both of us.
